With more than 30 years experience developing and producing line marking paints, Selectline has become a major player in several European countries. Our brand Selectline is the culmination of this experience, resulting in the highest possible qualities of line marking paints.

ABOUT SELECTLINE

Selectline has been successfully producing and manufacturing line marking paints in Northwest Europe for 30 years. Both under private label and our own product range.

Selectline has its own research & development and production facilities in The Netherlands, France and Canada. This keeps delivery times short as well as it guarantees consistent top of the line quality. Every production batch is checked by our own quality control and samples are stored for future reference.

A SELECT TEAM

The Selectline team is build up around our main locations in The Netherlands and France to support the European markets. Our account managers and marketing professionals have a wide range of expertise to support our distributors and other partners. We value long-term relationships built on trust and respect with all our partners and stakeholders.

“We value long-term relationships built on trust and respect with all our partners and stakeholders.”

PRODUCT RANGES

The Selectline product range consists of high-quality concentrates and ready-to-use paints accompanied by line marking spraying machines designed to perfectly mark your field. All our products are environmentally friendly. In addition, Selectline offers marketing packages with support to distributors to maximize success and return on investment.

OUR READY-TO-USE PAINTS.

Our ready-to-use sports field line marking paints stand for quality and convenience. They all give a very wear resistant white line straight from the can with no mixing needed. These line marking paints are safe for the environment and suitable for all sports that are played on natural grass.

PROPERTIES

- › Ready-to-use: saves time and water
- › Superb coverage and wear resistance
- › Very wear resistant
- › Environmentally friendly
- › Economical in use

SLDIRECT

Ready-to-use paint for quality and convenience

A ready-to-use sports field line marking paint that stands for quality and convenience. A very wear resistant white line straight from the can.

CONCENTRATE LINE MARKING PAINTS

OUR LINE MARKING MACHINES.

Selectline develops and supplies line marking machines that tie in perfectly with the properties of the range of Selectline paints. We keep improving on our existing machines and simultaneously are developing new line marking machines to make sure we can supply the most efficient and easy to use line marking solution.

PROPERTIES

- › **White powder-coat protects against rust and masks overspray**
- › **Reliable**
- › **Easy to use and clean**

SL LINER

High-quality user-friendly spraying machine

The SL Liner is user-friendly and highly efficient line marking machine that is suitable for spraying concentrates (SL Mix) and ready to use products (SL Ready).

SL ROLLER

Transfer wheel line marker

The SL Roller is the original solution for ultimate control over your lines and valued by professional clubs for their competition fields.

SL CLEANER

Cleaner for your line marking machines

Clean your machines in an easy way with the SL Cleaner.

SL LINER

HIGH-QUALITY USER-FRIENDLY SPRAYING MACHINE

The SL Liner is a user-friendly and highly efficient marking machine that is suitable for spraying concentrates (SL Mix) and ready to use products (SL Ready, SL Direct). The SL Liner is made from high-quality materials to guarantee durability and performance year after year.

- A heavy-duty frame ensures stability for optimal straight tracking ability
- High operating pressure for optimal results and low consumption
- Heavy duty battery for long operating times
- White powder-coat protects against rust and masks overspray
- Adjustable line width
- Spray from both sides or in front
- Fast marking

PREFERENCES

Every operator has his or her own preferences. SL Liner can accommodate to all. SL Liner is suited for spraying straight in front as well as off to the side of the machine. The spray-parts are easily removable to be mounted on the side of the machine.

GENERAL USAGE

SL Liner is suited to spray all available paints in the Selectline assortment. It is important to match the spray nozzle to the type of paint used. Amount of product used and whiteness of the line depends on the type of nozzle, pump pressure and walking speed.

SL LINER

SL ROLLER

TRANSFER WHEEL LINE MARKER

A wheel to wheel line marking machine inspired by the printing ink supply system, the SL Roller offers great ease of use and fast cleaning. Its mechanical operation makes it a durable solution for marking grassed sports fields.

The SL Roller is the original solution for ultimate control over your lines and valued by professional clubs for their competition fields.

- Reliable
- Mechanical operation
- Easy to use
- Easy to clean
- 10 Liter reservoir with draining possibility
- Handlebar adjustable in height and off-axis for comfort and optimal view
- GRIPP coating on the feed cylinders for a better grip of the paint

SL ROLLER

LINE MARKING MACHINES

SL CLEANER

CLEANER FOR YOUR LINE MARKING MACHINE

Your line marking machine is important for you and you want to trust on it. Therefore, maintain your machine with SL Cleaner.

- Cleaner for your line marking machines
- For a fast and effective cleaning action
- Prolongs lifetime of the machine
- Easy to apply
- Economical in use

APPLICATION

Create the desired amount of solution by diluting SL Cleaner with water according to your need. Apply the solution to the desired location and leave it acting 1 hour before brushing. Rinse it with clean water.

GENERAL USAGE

Nozzles and handles	SL Cleaner pure
Dirty materials	1 volume of SL Cleaner + 1 volume of water
Maintenance cleaning	1 volume of SL Cleaner + 6 volumes of water

GENERAL INFORMATION

- Suitable for the cleaning of Selectline paints.
- The use of safety glasses and gloves are recommended when handling or applying SL Cleaner.
- SL Cleaner is safe for the environment.
